Book a virtual Well Visit with Babylon today.

Dear [First Name],

Annual health checks are important for adults and children of all ages. These visits promote your child's growth and ensure they're growing at a healthy rate for their age. And for adults, it allows doctors to monitor any issues and plan for the future.

Regular check-ups also make sure adults and children receive specialized care that fits their health needs and long-term goals.

During a Well Visit, the doctor will provide:

- Age-specific information
- Necessary tests and exams
- Guidance on growth targets and nutrition
- Information about vaccines

Babylon has partnered with [Health Plan] to offer these visits virtually, and at no cost to you. Help keep you and your family healthy now and in the future with annual virtual Well Visits.

Best of health,

Dr. Darshak Sanghavi
Chief Medical Officer

Get started with Babylon today!

1

Download the app

Search **Babylon** in the App Store or on Google Play

2

Register yourself

Enter your personal information

3

Add health plan code

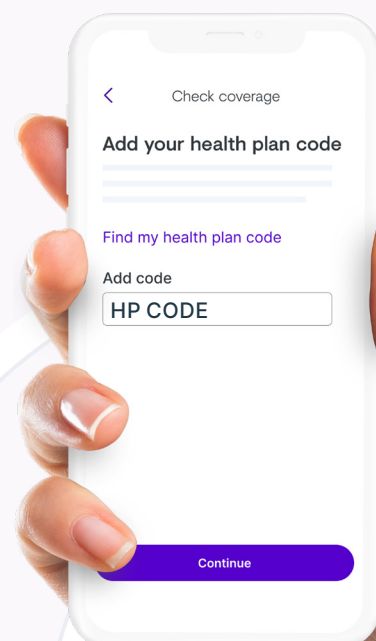

When prompted for your health plan code enter: **[HP CODE]**

4

Check insurance

Enter the Member ID number:
