

Healthcare anytime, right from your phone.

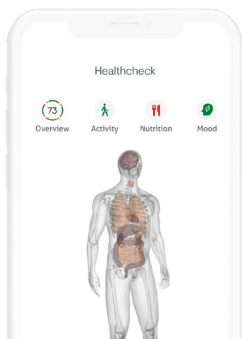

Talk to a doctor or a therapist whenever you need

Doctors and therapists available through the Babylon app can give you medical advice, refer you to specialists, prescribe medication for pickup at your pharmacy, and so much more!

Feeling off? Check your symptoms instantly

Describe what's wrong to our AI-powered Symptom Checker and we'll point you towards potential causes and provide you options for best next steps to take towards a healthier you.

Understand your health with Healthcheck

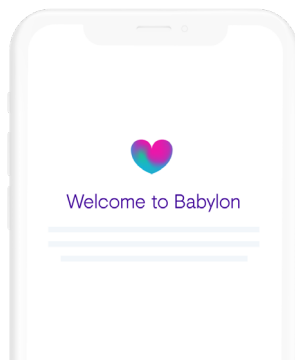

Use Babylon's Healthcheck tool to get a full run-down on your overall current health state. It'll help you identify your risk factors and learn how to stay healthy long-term.

Download the app and get started in minutes.

Download the app

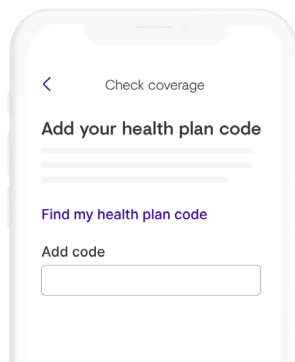

Search **Babylon** in the App Store or on Google Play.

Register yourself

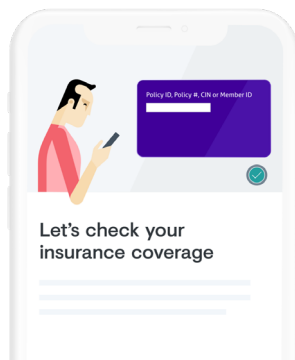

Enter your personal information.

Note: If you are a parent or guardian setting up an account for a child under 18, register first and add the child to your account. You do not have to be covered by your child's health plan to register.

Add code

When prompted for your health plan code enter the code listed on the www.babylonhealth.com/us website or in the letters you have received.

Check your insurance

Enter the Member ID number: **### ####**

Translation services are available. Just tap **Request a Translator** when booking your appointment.
